

# Fluor Protector

Superior protection against dental caries and erosion

## Fluor Protector S

Fluoride-containing varnish

In-office application

7700 ppm fluoride in a homogeneous solution

## Fluor Protector Gel

Special care gel

In-office and at-home application

Calcium + phosphate +  
1450 ppm fluoride

# Fluor Protector S Homogeneous varnish in a dispensing tube

## Features

7700 ppm fluoride in a homogeneous solution, approx. four-times higher concentration after setting

Optimum flow and wetting properties

Mild taste, mild smell

Easy application

Compatible with tooth-whitening agents

Multi-dose and single-dose units

## Benefits

- ▶ Immediately ready for use
- ▶ Controlled fluoride release
- ▶ Immediate availability of fluoride

Improved treatment of difficult-to-reach risk areas

- ▶ Recommended for sensitive patients
- ▶ High acceptance by children

Efficient treatment under field conditions

Reduction of potential hypersensitivity after tooth-whitening procedures

- ▶ High-yield dispensing tube
- ▶ Individual, single-dose units
